Q2 2022 Earnings Supplement

August 2022

Disclaimer

Repay Holdings Corporation (“REPAY” or the “Company”) is required to file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission (“SEC”) Such filings, which you may obtain for free at the SEC’s website at <http://www.sec.gov>, discuss some of the important risk factors that may affect REPAY’s business, results of operations and financial condition.

Forward-Looking Statements

This presentation (the “Presentation”) contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results, REPAY’s plans, objectives, expectations and intentions with respect to future operations, products and services; and other statements identified by words such as “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimated,” “believe,” “intend,” “plan,” “projection,” “outlook” or words of similar meaning. These forward-looking statements include, but are not limited to, REPAY’s revised 2022 outlook and other financial guidance, expected demand on REPAY’s product offering, including further implementation of electronic payment options and statements regarding REPAY’s market and growth opportunities, and REPAY’s business strategy and the plans and objectives of management for future operations. Such forward-looking statements are based upon the current beliefs and expectations of REPAY’s management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond REPAY’s control. In addition to factors previously disclosed in REPAY’s reports filed with the SEC, including its Annual Report on Form 10-K for the year ended December 31, 2021, the following factors, among others, could cause actual results and the timing of events to differ materially from the anticipated results or other expectations expressed in the forward-looking statements: exposure to economic conditions and political risk affecting the consumer loan market, the receivables management industry and consumer and commercial spending, including inflationary pressures, general economic slowdown or recession; the impacts of the ongoing COVID-19 pandemic, including the continued emergence of new variants, and the actions taken to control or mitigate its spread; a delay or failure to integrate and/or realize the benefits of REPAY’s recent acquisitions; changes in the payment processing market in which REPAY competes, including with respect to its competitive landscape, technology evolution or regulatory changes; changes in the vertical markets that REPAY targets, including the regulatory environment applicable to REPAY’s clients; the ability to retain, develop and hire key personnel; risks relating to REPAY’s relationships within the payment ecosystem; risk that REPAY may not be able to execute its growth strategies, including identifying and executing acquisitions; risks relating to data security; changes in accounting policies applicable to REPAY; and the risk that REPAY may not be able to maintain effective internal controls. Actual results, performance or achievements may differ materially, and potentially adversely, from any projections and forward-looking statements and the assumptions on which those forward-looking statements are based. There can be no assurance that the data contained herein is reflective of future performance to any degree. You are cautioned not to place undue reliance on forward-looking statements as a predictor of future performance. All information set forth herein speaks only as of the date hereof in the case of information about REPAY or the date of such information in the case of information from persons other than REPAY, and REPAY disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this Presentation. Forecasts and estimates regarding our industry and end markets are based on sources REPAY believes to be reliable, however there can be no assurance these forecasts and estimates will prove accurate in whole or in part. Annualized, pro forma, projected and estimated numbers are used for illustrative purpose only, are not forecasts and may not reflect actual results.

Industry and Market Data

The information contained herein also includes information provided by third parties, such as market research firms. Neither of REPAY nor its affiliates and any third parties that provide information to REPAY, such as market research firms, guarantee the accuracy, completeness, timeliness or availability of any information. Neither REPAY nor its affiliates and any third parties that provide information to REPAY, such as market research firms, are responsible for any errors or omissions (negligent or otherwise), regardless of the cause, or the results obtained from the use of such content. Neither REPAY nor its affiliates give any express or implied warranties, including, but not limited to, any warranties of merchantability or fitness for a particular purpose or use, and they expressly disclaim any responsibility or liability for direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees or losses (including lost income or profits and opportunity costs) in connection with the use of the information herein.

Non-GAAP Financial Measures

This Presentation includes certain non-GAAP financial measures that REPAY’s management uses to evaluate its operating business, measure its performance and make strategic decisions. Adjusted EBITDA is a non-GAAP financial measure that represents net income prior to interest expense, tax expense, depreciation and amortization, as adjusted to add back certain charges deemed to not be part of normal operating expenses, non-cash and/or non-recurring charges, such as loss on extinguishment of debt, loss on termination of interest rate hedge, non-cash change in fair value of contingent consideration, non-cash change in fair value of assets and liabilities, share-based compensation charges, transaction expenses, employee recruiting costs, other taxes, restructuring and other strategic initiative costs and other non-recurring charges. Adjusted Net Income is a non-GAAP financial measure that represents net income prior to amortization of acquisition-related intangibles, as adjusted to add back certain charges deemed to not be part of normal operating expenses, non-cash and/or non-recurring charges, such as loss on extinguishment of debt, loss on termination of interest rate hedge, non-cash change in fair value of contingent consideration, non-cash change in fair value of assets and liabilities, share-based compensation expense, transaction expenses, employee recruiting costs, restructuring and strategic initiative costs and other non-recurring charges, non-cash interest expense, net of tax effect associated with these adjustments. Adjusted Net Income is adjusted to exclude amortization of all acquisition-related intangibles as such amounts are inconsistent in amount and frequency and are significantly impacted by the timing and/or size of acquisitions. Management believes that the adjustment of acquisition-related intangible amortization supplements GAAP financial measures because it allows for greater comparability of operating performance. Although management excludes amortization from acquisition-related intangibles from REPAY’s non-GAAP expenses, management believes that it is important for investors to understand that such intangibles were recorded as part of purchase accounting and contribute to revenue generation. Organic gross profit growth is a non-GAAP financial measure that represents year-on-year gross profit growth that excludes incremental gross profit attributable to acquisitions made in the applicable prior period (or any subsequent period). REPAY believes that Adjusted EBITDA, Adjusted Net Income and organic gross profit growth provide useful information to investors and others in understanding and evaluating its operating results in the same manner as management. However, Adjusted EBITDA, Adjusted Net Income and organic gross profit growth are not financial measures calculated in accordance with GAAP and should not be considered as a substitute for net income, operating profit, or any other operating performance measure calculated in accordance with GAAP. Using these non-GAAP financial measures to analyze REPAY’s business has material limitations because the calculations are based on the subjective determination of management regarding the nature and classification of events and circumstances that investors may find significant. In addition, although other companies in REPAY’s industry may report measures titled Adjusted EBITDA, Adjusted Net Income, organic gross profit growth, or similar measures, such non-GAAP financial measures may be calculated differently from how REPAY calculates its non-GAAP financial measures, which reduces their overall usefulness as comparative measures. Because of these limitations, you should consider Adjusted EBITDA, Adjusted Net Income and organic gross profit growth alongside other financial performance measures, including net income and REPAY’s other financial results presented in accordance with GAAP.

- 1) For the three months ended June 30, 2022, reflects amortization of client relationships, non-compete agreement, software, and channel relationship intangibles acquired through the Business Combination, and client relationships, non-compete agreement, and software intangibles acquired through REPAY's acquisitions of TriSource Solutions, APS Payments, Ventanex, cPayPlus, CPS Payments, BillingTree, Kontrol Payables and Payix. For the three months ended June 30, 2021, reflects amortization of client relationships, non-compete agreement, software, and channel relationship intangibles acquired through the Business Combination, and client relationships, non-compete agreement, and software intangibles acquired through REPAY's acquisitions of TriSource Solutions, APS Payments, Ventanex, cPayPlus, CPS, BillingTree, and Kontrol Payables. This adjustment excludes the amortization of other intangible assets which were acquired in the regular course of business, such as capitalized internally developed software and purchased software.
- 2) Reflects the changes in management's estimates of future cash consideration to be paid in connection with prior acquisitions from the amount estimated as of the most recent balance sheet date.
- 3) Reflects the changes in management's estimates of the fair value of the liability relating to the Tax Receivable Agreement.
- 4) Represents compensation expense associated with equity compensation plans, totaling \$5.9 million and \$5.5 million for the three months ended June 30, 2022 and 2021, respectively.
- 5) Primarily consists of (i) during the three months ended June 30, 2022, professional service fees and other costs incurred in connection with the acquisitions of BillingTree, Kontrol Payables and Payix, and (ii) during the three months ended June 30, 2021, professional service fees and other costs incurred in connection with the acquisition of Ventanex, cPayPlus, CPS, BillingTree and Kontrol Payables, as well as professional service expenses related to the January 2021 equity and convertible notes offerings.
- 6) Represents payments made to third-party recruiters in connection with a significant expansion of personnel, which REPAY expects will become more moderate in subsequent periods.
- 7) Reflects franchise taxes and other non-income based taxes.
- 8) Reflects consulting fees related to processing services and other operational improvements, including restructuring and integration activities related to our acquired businesses, that were not in the ordinary course during the three months ended June 30, 2022 and 2021.
- 9) For the three months ended June 30, 2022 and 2021, reflects extraordinary refunds to clients and other payments related to COVID-19 and non-cash rent expense. Additionally, for the three and six months ended June 30, 2022, reflects loss on termination of lease and loss on disposal of fixed assets.
- 9) Represents non-cash deferred debt issuance costs.
- 10) Represents pro forma income tax adjustment effect associated with items adjusted above.

Depreciation and Amortization Detail

(\$MM)	Q2 2022	Q2 2021
Acquisition-related intangibles	\$25.9	\$17.3
Software	2.7	2.1
Amortization	28.6	19.4
Depreciation	0.6	0.3
Total Depreciation and amortization	\$29.2	\$19.7

Note: Adjusted Net Income is adjusted to exclude amortization of all acquisition-related intangibles as such amounts are inconsistent in amount and frequency and are significantly impacted by the timing and/or size of acquisitions (see corresponding adjustments in the reconciliation of net income to Adjusted Net Income on slide 18). Management believes that the adjustment of acquisition-related intangible amortization supplements GAAP financial measures because it allows for greater comparability of operating performance. Although REPAY excludes amortization from acquisition-related intangibles from our non-GAAP expenses, management believes that it is important for investors to understand that such intangibles were recorded as part of purchase accounting and contribute to revenue generation. Amortization of intangibles that relate to past acquisitions will recur in future periods until such intangibles have been fully amortized. Any future acquisitions may result in the amortization of additional intangibles.

Organic Gross Profit Reconciliation

	FY 2020A	FY 2021A	FY 2022E
Total Gross Profit Growth	44%	44%	32%
Less: Growth from Acquisitions	33%	30%	18%
Organic Gross Profit Growth⁽¹⁾	11%	14%	14%

1) Organic gross profit growth is a non-GAAP financial measure that represents year-on-year gross profit growth that excludes incremental gross profit attributable to acquisitions made in the applicable prior period (or any subsequent period)
